ASIO FOR BOOKING - ABLOY FOR OPENING DOORS

ABLOY OS , ABLOY ENTRY and ABLOY CUMULUS solutions are compatible with Asio

Urhea

Urhea doors open with mobile phone

Asio Booking and ABOLY OS Access control solution work seamlessly together in Urhea Arena.

Access grants to Urhea facilities are generated during the booking process.

After the booking, the user receives a mobile credential to their phone, with which they are able to access the booked facility during their booking.

<https://www.abloy.com/global/fi/references/urhea>

” Keyless access is not only easy but also efficient, when there is no need for staff in the process. This is particularly important when there are diverse user groups with varying schedules. The mobile credential is also a significantly more environmentally friendly solution than physical credentials. ”

– Sandra Coloma, Customer Service Manager of Urhea

<https://urhea.fi/>

Järvenpää TrackMan Golf

JTG's ABLOY ENTRY solution is integrated with Asio Booking providing "BOOK – PAY – USE" service experience

" The solution works like a thought. First our customers book and pay for their preferred time slot in our golf simulator with Asio Booking. After this they will receive a unique door code for the booking via SMS. Door code is active ten minutes before the start of the booking and until half an hour after the end of the booking. "

– Jussi Vänttinen, JTG

BOOK - PAY - USE

- Book and pay online
- Open the door smart lock for your booking

OPENING ABLOY SMART LOCK WITH SMS DOOR CODE

- Asio Booking connects spaces with Abloy controlled doors and grants accesses to the facilities that require booking.
- The access can be granted with **SMS door code**.
- The door code is sent to the booker via **email** and **SMS**.
- The door will open with the door code during the booking.
- The SMS door code message text can be customized to a local language.

ABLOY® ENTRY

ABLOY® OS

OPENING ABLOY SMART LOCK WITH HID MOBILE CREDENTIALS

HID
Compatible

ACCESS WITH MOBILE PHONE

- The access can be granted in Asio also with **HID mobile credentials**.
- The mobile credential works as a virtual access pass to the booked space.

The access grant for the booking is downloaded to the user's mobile phone.

The smart lock opens during the booking with a mobile phone.

▶ View, how users of the **Urhea Arena** access their booked spaces with HID mobile credentials:

<https://www.abloy.com/global/fi/references/urhea>

▶ View, how the bookings are accessed using the HID mobile credentials in the **Nokia Arena**:

<https://www.abloy.com/global/fi/references/nokia-arena>

ABLOY® OS

*HID mobile credentials work with the **ABLOY OS** Access control.*

OPENING ABLOY CUMULUS SMART LOCK WITH CUMULUS MOBILE APPLICATION

WORKS WITH
ABLOY® CUMULUS

ABLOY® CUMULUS

KEYLESS ACCESS TO FACILITIES DURING BOOKING WITH MOBILE PHONE

- The access can be granted in Asio also for the ABLOY CUMULUS smart locks.
- The access grant is downloaded to the user's mobile phone and will be visible in phone's CUMULUS application.
- The ABLOY CUMULUS smart lock opens during a booking with the mobile phone's CUMULUS-application.

ABLOY solution

ABLOY® CUMULUS

ABLOY® OS

ABLOY® ENTRY

ASIO WORKS WITH ABLOY OS

ABLOY® OS

- ABLOY OS is well-suited for large scale needs of access control.
 - Asio grants accesses to ABLOY OS with **SMS-door codes** and **HID mobile credentials** that are downloaded to the user's mobile phone .

ABLOY® ENTRY

ASIO WORKS WITH ABLOY ENTRY

- ABLOY ENTRY is well-suited for lighter access control needs.
- Asio grants accesses to ABLOY ENTRY with **SMS-door codes**.
- ABLOY ENTRY door codes also work on a single visit basis.

ASIO WORKS WITH ABLOY CUMULUS

WORKS WITH
ABLOY® CUMULUS

- ABLOY CUMULUS smart locks open with mobile phone.
- Asio grants accesses to ABLOY CUMULUS and transfers the access grant to the user's mobile phone CUMULUS application.
